PVC Free Liners:

Viscose offer two types of PVC Free Liner:

- Svelon 596
- Svelon 520L

Selecting the correct liner:

Tell us about your filling process and we'll help you select the right liner for your product.

Liner	Pasteurisation
PVC Free Svelon 596	20 min at 62 °C
PVC Free Svelon 520L	Hot fill at 95 °C or pasteurisation 30 min at 85 °C
Compound Liner	Max temperature 85C (185F) for not more than 20 minutes

* Viscose recommend that the customer carries out a validation run/trial to prove the liner is suitable for their product and process

Talk to us about custom design options: sales@viscose.co.uk
