

THANK
YOU

As we reflect on a different Easter holiday this year, I am delighted that the teams here at Viscose were able to enjoy a well-deserved break.

As part of the supply chain to critical sectors we have seen a major surge in productivity, with our **production teams** working tirelessly around the clock to manufacture and supply tamper evident bands across the World.

Due to our incredible, dedicated **remote working teams**, we continue to provide the highest levels of service. Although we are apart, we remain very much connected.

It is thanks to the combined efforts of the **Viscose Family** we can say it is very much business as usual.

Our **suppliers** of products and services continue to adapt and deliver according to our increasing needs under the most challenging conditions.

Which brings me to our **amazing customers**.

The combined efforts of Viscose and its supply chain means we are able to satisfy the increased demands of those **customers, existing and new**, who continue to support us.

A huge **Thank You to everyone** mentioned above. You are all highly appreciated and I look forward to meeting you in person, once life returns to normality.

Please stay safe.

THANK
YOU
