

Protecting your product, enhancing your brand

## Heat Shrink Capsules

Viscose manufactures capsules and shrink sleeves in PVC and PET as a secondary tamper evidence seal used in a wide range of packaging.

As a UK manufacturer based in Swansea we can offer:

- Quality Heat shrink capsules
- Free stock-holding
- Reliable deliveries nationally and globally
- Excellent service from a dedicated Account Manager
- Up to 3 colour print designs
- Low MOQs and Short lead times

We also produce tamper evident bands which are produced from three substrates, Cellulose, PET and PLA and are available in three formats; tubing, cut bands and preforms.

Renowned for our exceptional customer service, we pride ourselves on providing tailored solutions to a wide selection of customers from small artisan companies starting their journey to large global brands. Our friendly, dedicated team recognise the value in working in partnership with our customers and therefore offer expert technical advice, bespoke equipment and onsite support.

We already work with many customers large and small on these products and will be happy to chat through how we can support your business.

# FEATURES ...

- Also known as bottle capsules, they are fitted over the primary closure of your bottled product to provide an additional layer of tamper evidence that is easily visible to the consumer.
- Available in PET or PVC
- Capsules are available in plain colours but are most often used as a high quality decorative finish which enhances your brand allowing it to stand out.
- Available with black, gold or silver tear tabs and with black silver or white topfoils from stock. Other bespoke colours and printed top foils available on request
- Products need heat to shrink either by a heat tunnel or heat gun which Viscose can supply
